Submissions close March 31, 2026

2026 Featured Presentations

Project Grantham – When a Hamilton man and two Brantford residents were killed in July 2019, a joint investigative team was formed. For over two years, the teams worked tirelessly to identify the individuals responsible.

Investigating the murders of our fallen brothers and sisters is one of the most complex and sensitive responsibilities in law enforcement. These cases demand meticulous attention to detail, impartiality, and adherence to legal and ethical standards. These investigators manage these high-stakes investigations under intense public and organizational pressures to bring justice for our fallen officers and their families.

About the Homicide Conference

Each year the OHIA Workshop Committee provides content that is topical, relevant and aimed to benefit Canadian Homicide Investigators by developing their skills in the current environment. This ensures that the workshop is informative, relevant and educational.
