

INVESTIGATIVE GENEALOGY

With Wyndham Forensic Group's unrivalled depth and breadth of experience in criminal cases, our scientific team combines advanced DNA analyses with genealogy research to assist investigators in identifying genetic links to unknown DNA profiles:

- Case & feasibility reviews
- Generate new leads in cold cases & narrow suspect lists
- Find genetically related individuals
- Discover bio-geographical ancestral background
- Perform targeted kinship searches
- Access & monitor multiple DNA databases
- Create family trees
- CAP/CLIA/ISO-accredited testing facilities

Powerful New Investigative Leads from DNA

Wyndham Forensic Group is proud to help advance investigations in criminal cases in Canada and internationally

Wfg is a social enterprise providing trusted, accredited forensic laboratory testing and consulting services for clients across Canada and around the world.

Wfg was established in 2010 by Forensic Scientists with experience in both the public and private sectors. Since then, our experts have provided innovative and customized services to support investigators in some of the most complex cases in the country.
